

### *Manage, administer and report regulatory employee health issues*

EHMS is the ultimate solution designed for employee health professionals in creating & managing Respiratory Protection, Hand Hygiene, Flu vaccination, PPD exposure Testing & Workers Compensation Programs. The system provides capabilities to Create/Maintain Policy Programs, Schedule & Manage Campaigns for testing, training and examination; Create OSHA reports; Document flu vaccines/declinations; Analyze injury causes; Track exposures, treatments, in-service education and hand hygiene compliance.

### *User friendly and intuitive system*

EHMS is simply the most user friendly and intuitive management system in the health care industry. **EHMS** is designed to help meet healthcare worker safety guidelines, employee privacy regulations, and injury/exposure reporting requirements of CDC, TJC, HIPAA, and OSHA. Employers can track immunizations and test compliance rates, sort data to identify non-compliant employees, and target your communication and education efforts to employees and to supervisors. Instant reporting for JCAHO and DPH site visits.

### *OSHA, HIPAA compliance*

- EHMS complies with the Health Insurance Privacy and Accountability Act (HIPAA) by ensuring that confidential patient information is secured and that the applicable HIPAA compliance standards are met.
- Meets healthcare worker safety guidelines, employee privacy regulations, and injury/exposure reporting requirements of CDC, TJC, HIPAA, and OSHA.
- Supports OSHA Respiratory Protection Regulations (Standards- 29 CFR)

## *Employee Health Management System*

Employee Health Management System allows organizations to manage, administer and report regulatory employee health issues such as Fit Testing, PPD testing, and Worker Compensation.

Mask fit testing important part of pandemic planning especially with the emergence of the Influenza A H1N1 virus. The use of masks at health-care facilities during heightened stages of a pandemic is no doubt an effective infection control method, but studies document that proper fit testing enhances the effectiveness of masks. Employee Health Management System manages annual fit testing for employees, vendors and contractors.

## *Centralized, Paperless Solution*

*Employee Record Management*

*Campaign Scheduling/ Management*

*Inventory Management- Respirator, Vaccines, PPD kits*

*Evaluation- Medical, Program, Health History*

*Fit Test Management*

*Training & Compliance Management*

*Predefined/Adhoc Reporting*

*Key Performance Indicators*

THE SMART WAY  
TO MANAGE  
YOUR EMPLOYEE  
HEALTH RECORDS
